### **CALL FOR PAPERS**

---

**Dear Colleagues,**

**The Workshop on Environmental Sciences and Engineering is part of the 6<sup>th</sup> IJCELIT** with a focus on the issues of environmental area. During this year workshop we intend to devote special interest to the following topics;

- Pollution control and mitigation
- Natural resource management
- Effects of global climate change
- Hazardous-waste management
- Environmental modelling
- Green Industry Development
- Biorefinery Technologies
- Soil and groundwater remediation
- Energy & renewable energy sources
- Biomass utilization: strategies & sustainability
- Environmental management: protection & conservation
- Circular Economy
- Environmental Education

Beyond these topics we encourage submissions of innovative papers from the broad area of general environmental sciences and technologies what could be of interest to the academic scene of environmental engineering.

Information about abstract submission, deadlines, registration fee can be found under "General Information".
